SINGAPORE: 49 patients and helpers from HCA Hospice Care took a tour of Sentosa's attractions on Friday.

Accompanied by volunteers from MediaCorp, they began their morning at the Underwater World and got within close range with some of the aquarium's performing stars.

Next up - a stroll down Universal Studios theme park at Resorts World Sentosa.

For some of the hospice patients, this was a rare day out.

Low Bak Meng, a patient at HCA Hospice Care, said: "I used to go to the Underwater World quite often. But since I was hit by cancer in 2005, I've had no chance to travel out on my own." - CNA/vm
